PPSU F2159 PEX Fittings

NDL PPSU F2159 PEX fittings are designed for the long term.

Specifications

PPSU F2159 PEX fittings are meticulously designed components crafted to meet the requirements of plumbing specialists. These fittings are engineered with utmost precision and adhere to the highest standards of quality and performance. Constructed from durable PPSU (Polyphenylsulfone), they exhibit exceptional chemical resistance and maintain their integrity under varying temperatures (up to 200 F/93 C) and pressure conditions (up to 100 PSI/689.5 kPa). The standardized dimensions and seamless compatibility with PEX plumbing systems make these fittings a reliable choice for hassle-free installations and repairs. Plumbing specialists can trust PPSU F2159 PEX fittings to deliver robust connections and long-lasting performance in their demanding projects.
