Black Malleable Fittings

Cutting-Edge Black Malleable Fittings for superior HVAC-R and Plumbing Solutions

- Made of black steel and are used to connect lengths of pipe together or to change direction of pipe
- Typically used in high-pressure applications such as gas lines, steam lines, and water lines. Also used in applications where pipes are exposed to corrosive elements, such as industrial settings.
- Often used in conjunction with black pipes, which are also made of black steel. Black coating on both pipe and the fittings helps protect them from rust and corrosion.
- Commonly used in plumbing and gas applications
