

NDL Industries

APPLICATIONS

Residential and Commercial Plumbing

Water Hose Connectors

NDL Water Hose Connectors provide reliable leak-proof connections for water heaters, toilets, faucets and dishwashers.

Specifications

Corrugated Water Heater Connectors

Featuring full flow internal diameter with flexible corrugated 304 stainless steel exterior for superior performance over copper and braided 304 stainless steel without kinking or flattening. Working pressure: 125 PSI maximum; working temperature : -4°F to 212°F (-20°C to 100°C).

Braided Faucet Connectors

Connects water supply to faucets, featuring 304 stainless steel flexible braiding on flexible PVC core with EPDM O-rings for robust corrosion resistance. Working pressure: 125 PSI; working temperature: 68°F to 158°F (20°C to 70°C).

Braided Toilet Connectors

Connects to standard toilets with ballcock inlet with either hand-tighten wing nut or OD compression connector for quick and easy installation. Features braided 304 stainless steel flexible braiding on flexible PVC core with EPDM O-rings that prevents leak-causing deterioration. Working pressure: 125 PSI; working temperature: 68°F to 158°F (20°C to 70°C).

Braided Dishwasher Connectors

Connects water supply to dishwasher using 304 stainless steel braiding on flexible PVC core with EPDM O-rings that bends freely without kinking or crimping. Working pressure: 125 PSI; working temperature: 68°F to 158°F (20°C to 70°C).

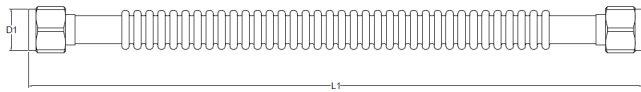

Water Hose Connectors

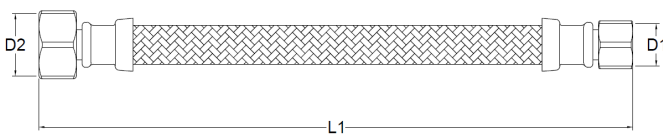

WHO Certifications and Approvals

- cUPC and NSF 14-61-372 recognized
- ASME A112.18.6-2017
- CSA B125.6-17
